Thank you Don,

I appreciate the kind words. When you have a free moment please send me a list of the aspects that are unacceptable and the desired course of action to fix it. I will then work with Engineering to see what can and can't be done and see how our office can fit in.

Also, in regards to the Westside, I know Jim Burman still has serious concerns about work taking place simultaneously on the strip lots and the sidewalk, as he feels there may be opportunity to be gouged by the contractor. If you have a free moment please give me a ring.

Kind regards,

Logo5-web.
